DEHYDRATED CULTURE MEDIA

*A Culture of Service . . .*

**CRITERION™**, Hardy Diagnostics' dehydrated culture media is formulated to meet or exceed only the highest quality standards. Choose from 250 standard formulas or request custom blending to your specifications. The innovative packaging designs and overall reliability make **CRITERION™** the logical choice for culture media in your laboratory.

## FEATURES & BENEFITS

### GRAY JAR

Opaque gray jar diminishes light penetration prolonging superior performance and shelf life.

### INDUCTION SEAL

Pull off induction seal prevents moisture from clumping the media; keeping media fresh and dry.

### WIDE MOUTH OPENING

The extra wide opening allows you to use a scoop to measure the powder. Reduces dust formation. No more shaking the bottle to dispense the media.

### HAND GRIP

Convenient hand-grip design features finger indentations to allow for easy and safe handling of the bottle.

### DESSICANT PACK

A silica gel pack is included in each bottle to prevent clumping.

### REUSABLE SEAL

A built in cushion seal, inside the lid prevents moisture from entering the previously opened container.

**UNPARALLELED PERFORMANCE** Every formulation and lot is thoroughly tested for optimal growth characteristics.

**COMPETITIVE PRICING** Call for a quote! You'll be amazed at how much Hardy can save for you. Contact us for more information!

**SCOOP**  
Using a scoop from the wide mouth opening of the bottle reduces dust formation while weighing. A free scoop is included with each shipment.

**TECHNICAL INSTRUCTIONS**  
Available on CD-ROM, our software program, HUGO™, provides complete procedures for all CRITERION™ as well as our other microbiology products.

**DESICCANT**  
Included in each bottle of CRITERION™ to prevent moisture build-up and clumping of media.

**BSE FREE SOURCES**  
All animal components used in CRITERION™ formulations are sourced from countries the USDA has certified as free from BSE (Bovine Spongiform Encephalopathy).

**STACKABLE**  
Bottles and buckets are stackable for efficient and economical storage on your shelf.

**CONVENIENT SIZES**  
Packaged in four standard sizes to fit your needs:

- 2 liter mylar bag (pre-measured to make 2 liters of culture media),
- 500gm bottle
- 2kg buckets with locking screw top lid
- 10kg buckets with locking screw top lid

**LARGE LOTS AVAILABLE**  
Save money and reduce QC time by calling ahead and sequestering large lots of material. Bulk packaging is also available.

**DUST FREE**  
Scooping out the media from the wide mouth bottle, instead of pouring and shaking reduces dangerous dust formation.

## SHEEP BLOOD

Our sheep blood is provided by a controlled herd of sheep that are kept antibiotic and disease free. The sheep are kept for the sole purpose of providing high quality blood for your media. Hardy Diagnostics does not use slaughterhouse blood, where there is always the risk of spontaneous hemolysis and unwanted antibiotics or contaminants. The sheep are humanely bled on a veterinary supervised program for weekly shipments to ensure the freshest possible blood is delivered to your lab.
