Components

Lyophilized reagent in glass vial.

Form

Lyophilized solution of Adenosine Tri Phosphate (ATP) with TRIS HCl and Sucrose in very low concentration; approximately 5×10^{-13} moles.

General Safety Data

Lyophilized reagent will not come in contact with surfaces or persons under normal use per instructions on insert. Avoid contact with skin and clothing. If contents come in contact with skin or contact surface, clean with soap and water.

Hazard Data

Reagent may cause irritation to the eyes and skin. Avoid contact, inhalation and ingestion.

Toxicity Data

May be harmful if inhaled or ingested. May cause skin and eye irritation.

Health Hazard

ACUTE EFFECTS: May be harmful if inhaled or ingested.
FIRST AID: In case of eye contact, immediately irrigate with copious amounts of fresh water. In case of skin contact, immediately wash with soap and water. If ingested, wash mouth with water and seek medical advice. If inhaled, remove to fresh air.

Fire/Explosion Hazard Use water spray, carbon dioxide, dry chemical powder or appropriate foam to put out contents if on fire.

Handling Keep out of reach of children. Avoid contact with eyes, skin and clothing.

Special Precautions Not for human consumption or drug use.

Storage Store at 2-8°C. Store in original box protected from light.

Waste disposal SPILL RESPONSE: Dilute with water and flush to waste
RECOMMENDED DISPOSAL: Used vials can be disposed off as trash. Dispose off unused expired kits, after rinsing vials with water, as trash.
